

iHERE

iDigital HEalth liteRacy Education for vulnerable groups

iHERE Project

The iHERE project supports the vulnerable social groups in developing a set of health literacy and digital literacy skills. These skills include the ability to analyse information from digital sources and apply the knowledge to personal health situations. The main aim of iHERE project is the direct access of the socially vulnerable groups into healthcare services and health promotion information through the familiarization of digital sources and tools.

Partnership

- **EhB**- Erasmus Hogeschool Brussel (Belgium)
- **Akademie Klausenhof** (Germany)

iHERE Kick-off meeting

THE OFFICIAL BEGINNING OF THE PROJECT

The iHERE Kick-off Meeting (KoM) took place on 9th December 2020 virtually. The goals of the KoM were to introduce the partnership, establish frameworks for successful project implementation, define upcoming activities, roles and responsibilities, establish an effective plan for the project activities.

IO1- iHERE Curriculum and Resources Toolbox

The iHERE **Curriculum and Resources Toolbox** is the baseline of the project and is currently in progress. It will provide the essential educational context for the effective training of our target groups, as it is built upon the different levels and tailored to the needs of them. PROLEPSIS, as the coordinator of this IO, has been intensively working to create a fitting structure and framework.

The Toolbox will be based on:

- iHERE Learning units Context,
- iHERE Exercise Book,
- iHERE Assessment Tool.
